

Three in a Row

How to play: Sit the game board between you and partner. Each choose which colour of counters you would like to be. Take turns to roll the two dice and add together the total number of dots. Place one of your counters on top of that number on the game board. The first person to get three of their counters in a row wins the game

Resources Included: 1 instruction card, 1 game board, counter template

Resources needed from home: two dice

Key skills involved in this game: Find the total by combining two groups.

Vocabulary/key questions to ask: together, add, count, total, how many altogether

Extra challenge: Can you roll two dice and take away the smaller number from the larger number?

*Game board and
counters*

5	7	11	5
4	9	2	6
3	10	7	8
12	6	5	4
