

# Number Book

**How to play:** Using A4 paper folded to make a book, write a number on top of each page. Using pictures from magazines or small items, stick these onto the page, counting out the total to match the numeral on the page. You could also draw this many smiley faces, hearts or shapes.

**Resources Included:** 1 instruction card

**Resources needed from home:** paper, magazines, pen, small objects, glue, scissors.

**Key skills involved in this game:** Numeral recognition and counting out totals to match a numeral.

**Vocabulary/key questions to ask:** numeral names, count, what number is this? How many... do we need to stick here?

**Extra challenge:** Can you do this with numerals to 20, or beyond?
