

Counter Pattern

How to play: Place all of the counters onto a flat surface. See if you can make a repeating pattern using the colours of the counters. Can you make a second different repeating pattern?

Resources Included: 1 instruction card, counter template

Resources needed from home: scissors, objects for challenge.

Key skills involved in this game: To use familiar objects and simple shapes to create and recreate pattern.

Vocabulary/key questions to ask: pattern, can you tell me what your repeating pattern is? What colour would come next?

Extra challenge: Use objects from around your house to create a repeating pattern. For example: cutlery, soft toys, pens/pencils, pegs
